

Azure Fundamental

Welcome to "Azure Fundamentals"!

This course will teach you React.js in a practice-oriented way, using all the basic and most commonly used Azure services like Azure Virtual machines, Azure App service, Azure Storage accounts and Azure Databases

This course will really help you if you need to start using Azure cloud

No matter if you know nothing about Azure or if you already got some basic Azure knowledge (not required but also not a problem), you will get lot of useful information and knowledge out of this course!

My goal with this course is to ensure that you feel confident working with Azure basic services, so that you easily use Azure services in you projects, or simply enhance your portfolio, whatever your goal is: This course gets you there!
